Skilled Aquaculture Worker with 8 years of experience in brackishwater fishpond operations, fish handling, and environmental conservation practices in the Western Mindanao coastal fishery sector.

CORE SKILLS

Aquaculture Support • Fish Handling • Environmental Conservation • Crop Production • Waste Management • Animal Care

WORK EXPERIENCE

Aquaculture Technician | Bureau of Fisheries and Aquatic Resources – Region IX | Feb 2018 – Present

- Operated and maintained milkfish and tilapia hatchery and grow-out operations in 3-hectare government demonstration fishpond.
- Applied water quality monitoring protocols including DO, pH, temperature, and salinity measurements.
- Harvested, sorted, and prepared fishery products for market distribution following proper fish handling and chilling procedures.
- Conducted mangrove rehabilitation plantings and coastal clean-up activities as part of BFAR's conservation programs.

Fishpond Laborer | Zamboanga City Fishpond Cooperative | Jun 2015 – Jan 2018

- Assisted in daily pond preparation, stocking, feeding, and harvesting of bangus and sugpo.
- Maintained pond dikes, water gates, and aerator equipment to ensure optimal fish production conditions.
- Segregated and disposed of fishpond waste according to the cooperative's environmental management guidelines.

EDUCATION

Bachelor of Science in Fisheries — Western Mindanao State University – Zamboanga City, 2014

CERTIFICATIONS

- Good Aquaculture Practices (GAqP) Training – BFAR, 2018
- Environmental Compliance Awareness Training – DENR, 2020
